Financing Energy Conservating

Pionners in performance contracting share their experiences in lively case studies set in various organizational structures. They discuss basic implementation issues relevant to designers and managers of any government program.

Zysman John

### Governments, Markets, and Growth

The economic performance of all the advanced countries deteriorated in the 1970's; in many nations the deteriorations was quite abrupt. The general signs of trouble were evident in inflation rates that jumped, growth rates that sloed, and the ever-increasing numbers of people out of work.
